Overcooked Example

Overcooked Example

Overcooked Example

Game Concept

Game Concept

- The concept of my demake is a 2D top down cooking game, where the player has to create food as ordered before the time runs out.

Game Concept

- The concept of my demake is a 2D top down cooking game, where the player has to create food as ordered before the time runs out.
- The game can be co-op as well as single player.

Technical Feasibility

Technical Feasibility

- ▶ This type of game is fairly simple, as there is no scrolling backgrounds, and not lots of enemies to render, only the player and the objects that the player can interact with.

Technical Feasibility

- ▶ This type of game is fairly simple, as there is no scrolling backgrounds, and not lots of enemies to render, only the player and the objects that the player can interact with.
- ▶ The game will have a detailed player sprite, consisting of 4 8x8 sprites, and the tiles will be 8x8 sprites.
